

HYPO AWARENESS TRAINING

AIM:

- ✓ CDEP offers two short topics that provide essential training to guide health & social care staff on how to safely manage hypos in either an:
 - **inpatient setting** (acute ward) – choose **Hospital Hypos**, or
 - **outpatient setting** (community/care) – choose **Hypos at Home**
- ✓ Depending on selected CDEP levels, the topics will focus on identifying which people are at **risk**, recognising the **symptoms**, safely treating hypos to **reduce patient harm**, **glucose targets** for different types of diabetes and identifying **unrecognised hypos**.

DURATION:

- These topics will take roughly **30 minutes to complete**.

The completed topic will generate a :

- **certificate**, and
- **reflection form** for *revalidation* and *appraisals*

Start your hypo training today!

- **Sign in to CDEP** or
- **See if the topic has been added to your Trust's LMS or ESR.**
