

Topic :

HYPO AWARENESS

HOSPITAL HYPOS

HYPOS AT HOME

AIM:

- ✔ These short topics provide essential training to guide healthcare staff on how to safely manage hypos in either an **inpatient (acute ward setting)** or in an **outpatient (community/care setting)**.
- ✔ **Identifying** which people with diabetes are at risk, **recognising the symptoms**, treating the **different levels**, and safely managing the process in order to **avoid or reduce an inpatient harm** are all areas that will be covered, depending on selected CDEP levels.

DURATION:

- 🕒 These topics will take roughly **15-30 minutes to complete**.

Each completed topic will generate its own **certificate, reflection form for revalidation and appraisals...** as well as **CDEP rewards!**

CDEP is **award winning!** This confirms that our training is on target and proving its value. Sign into CDEP and see for yourself!

Sign into **CDEP** and start your **Hypo Awareness** training today!
