

## ORAL THERAPIES

### AIM:

**This topic covers the different oral therapies available for the management of type 2 diabetes.** Depending on selected CDEP level, it focuses on how to:

- ✓ Describe how oral glucose-lowering medications are used to help manage type 2 diabetes.
- ✓ Be aware of the common side effects of oral diabetes medications.
- ✓ Provide advice on oral glucose-lowering medications for people with type 2 diabetes.
- ✓ Be able to effectively manage oral diabetes medication across a range of co-morbidities.

### DURATION:

 This topic will take roughly **30-60 minutes to complete**

The completed topic will generate :

- a certificate
- reflection form for revalidation and appraisals

**Start the Oral Therapies topic today!**
